- **Database Management:** MySQL, MongoDB
- **Tools & Technologies:** Git, GitHub, Visual Studio Code.

EXPERIENCE

Frontend Developer | Faclon Labs | Mumbai, Remote

09/2022 - Present

Frontend R&D Projects at Faclon Labs:

- Spearheaded the development of a **drag-and-drop form builder** using **Angular** and **TypeScript**, reducing form creation time by **70%**, resulting in 50+ complex forms being created monthly without coding.
- Implemented **sharing functionality** via **QR codes and links**, increasing form accessibility and distribution by **40%**, with over **1000 users** leveraging the feature in the first quarter.
- Boosted user satisfaction by **50%** through customizable **sidebar entities**, enhancing navigation flexibility for over **500 users**.
- Introduced a **kiosk mode** for public interfaces, improving interaction by **60%** and streamlining user flows for kiosk-based applications.
- Reduced page load times by **30%** through **code-splitting** and **lazy loading**, resulting in faster performance across **15+ modules**.
- Delivered a **mobile-responsive** user interface, increasing mobile user engagement by **35%**, with traffic from mobile devices rising to **60%** of total users.

Client Project for Major Client:

- Led a cross-functional team to build a **custom dashboard** from the ground up, utilizing **Highcharts** for real-time data visualization, improving analysis speed by **40%** for over **200 daily active users**.
- Designed and implemented **filtering mechanisms** and **local storage-based state persistence**, leading to a **25%** reduction in time spent on recurring configurations.
- Delivered **dynamic, real-time interactive charts** using **Highcharts**, processing **100k+ data points** in under 1 second, improving decision-making speed for client stakeholders.

Frontend Developer | Tagbin | Gurugram, Haryana

09/2021 - 09/2022

- Led development of the Museum Management System for the **PM Museum** in New Delhi, inaugurated by Mr. Narendra Modi.
- Developed the frontend for **30+ interactive applications** using **React.js**, **HTML5**, **CSS3**, and **JavaScript (ES6+)**.
- Enhanced visitor engagement through interactive features, maintaining **98% uptime** for a daily crowd of ~4000 visitors.
- Successfully adapted the Museum Management System for the **Satya Sai Museum** in Bangalore.
- Reduced deployment time by **40%**, streamlining the adaptation process and improving efficiency.

Frontend Developer | Prymus Brand Com. | Noida, UP

02/2021 - 09/2021

- Developed and maintained the main site of the company, including login and payment functionality using **HTML5**, **CSS3**, and **JavaScript**, improving user login success rate by 30%.
- Created a real-time news website by the domain of newzcities.com, consuming live news through ANI's API, increasing page views by 60%.
- Worked on various other projects, including building sites for client companies, contributing to a 25% increase in client project delivery rate.

PROJECTS

Traversal — Angular 17, Material UI, Here Maps

- Dynamic browser-based map application with interactive navigation, custom location markers, and a client-side operation for swift responsiveness and enhanced privacy.

EDUCATION

B. Tech in Electronics and Communication | Delhi, IN

2016 - 2020
